Latest News!

Please check my website for the latest list of items for sale. If you wish to review my feedback on eBay (www.ebay.com), my handle is "aiconversions.com." On occasion, I may even have some items for sale there. Thanks.

p.s. I have not been doing much selling lately so the prices below may not reflect the current market, particularly for digital equipment. If you have interest in an item, let me know and I will research a new price.

I can convert old (pre-1977) Nikkor lenses to fit the newer bodies, including the newest digital bodies such as the D90, D300 and D700. I can also install the traditional meter coupling yoke on autofocus and Series E to allow them to be used on the older bodies with full-aperture metering. For details, go to my website at www.aiconversions.com.
